

TALKING POINTS FOR PARENTAL CONSULTATIONS

What is lacking in the Wynne curriculum that should be addressed by Premier Ford's new sex ed

Love and Marriage

The sex ed strand of the Wynne/Levin curriculum never once mentioned the words “love” or “marriage”. Thus, it presents sexual relations to students in the context of a purely recreational pass time, like playing tennis.

The presentation of the Wynne sex ed was entirely unconnected to the true end goals of our God-given human sexuality which are love, marriage and the rearing of the next generation of children in a stable family environment.

If we're going to have teachers talk to children about sex, it must be discussed within the context of intimate, loving, monogamous relationships, ultimately leading to marriage and family.
