A Fresh Start for Canada

## **Subject: My Pro-Life Platform**

While I have been discussing broader issues of freedom and the loss of Canadian sovereignty under Justin Trudeau's new "social contract", I am also a well-rounded conservative with answers on every issue of concern to our party's base.

I have a clear vision for Canada's economic woes and how to resolve them. I know what Canada's role should and should not be on foreign policy and will restore respect for Canada on the world stage, which has been lost under the current Liberal regime.

I also believe that human life is sacrosanct from conception to natural death. Furthermore, I believe that although it's a delicate subject, we can certainly do more to increase respect for the sanctity and dignity of human life than the status quo.

## **My Pro-Life Platform**

If elected Leader of the Conservative Party of Canada, and eventually, Prime Minister, I will implement the following actions and policy changes:

### **1. Cancel Taxpayer Funding of Abortion in Foreign Countries**

Within my first 90 days as Prime Minister, I'll cancel the Trudeau government's \$700-million annual taxpayer funding of abortions.

This controversial use of scarce taxpayer money is also used for "sexual and reproductive health" activism and "education" programs in Africa and other foreign nations. In some cases, Canadian tax dollars are funding abortions where it is illegal.

I'll end Justin Trudeau's progressive virtue signalling with your money. I'll also conduct a line-by-line review of other wasteful or ideological foreign spending which does not serve Canada's interests.

## 2. **Legislation to Ban Sex-Selective Abortions**

Section 89 of the Conservative Party Policy Declaration [states](#): “*We condemn discrimination against girls through gender selection abortions*”.

Consistent with my belief that the CPC must start listening to the grassroots, a Grant Abraham government will make this policy, passed by grassroots CPC delegates at a convention, into law. *Within the first year, of my government, I will introduce legislation to ban sex-selective abortions.*

## 3. **Unborn Victims of Violence Act**

Section 112 of the Conservative Party Policy Declaration [states](#): “*The Conservative Party supports legislation to ensure that individuals who commit violence against a pregnant woman would face additional charges if her unborn child was killed or injured during the commission of a crime against the mother.*”

A Grant Abraham government will honour the voice of grassroots Conservatives who endorsed this policy at a party convention, and introduce an Unborn Victims of Violence Act within its first term.

Not only will this provide greater protection in law to pregnant women, it will also bring a greater sense of justice to the grieving victims of violent assault on pregnant women, who desperately want their loss to be acknowledged in law.

If you support my common-sense pro-life platform, please help pull me across the finish line with a [donation](#) to help me meet the \$300,000 entrance fee required by the CPC. That fee is due at 5:00pm ET today!

Political contributions are tax-deductible. You’ll get 75% of your donation back on your tax return next year. That means a \$400 donation to my campaign will cost you just \$100!
