

WELCOME MARY WAGNER IN KITCHENER

Mary Wagner is a pro-life activist, in protecting the rights of unborn children. She has spent countless years defending those that cannot defend themselves. Pregnant women have been supported and educated by Mary about their options, in spite of the hardships she has faced. Mary was imprisoned for her courageous yet peaceful battles, and continues to speak solemnly for those voiceless victims of abortion. We, the Friends of Mary Wagner support the movement to end this Canadian injustice and build solidarity amongst pro-life groups.

Join us in welcoming Mary Wagner to our first pro-life meeting!
