

POLLING RESULTS

**Where Albertans stand on parental consent
for abortion. February 2024**

METHODOLOGY

- Survey of 6,047 Albertans via Interactive Voice Response (IVR)
- Survey response rate was 16.2%
- The field date for this survey was February 1st, 2024
- The margin of error associated with the total sample is +/- 2.1 percentage points
- Results have been weighted based on region in the province

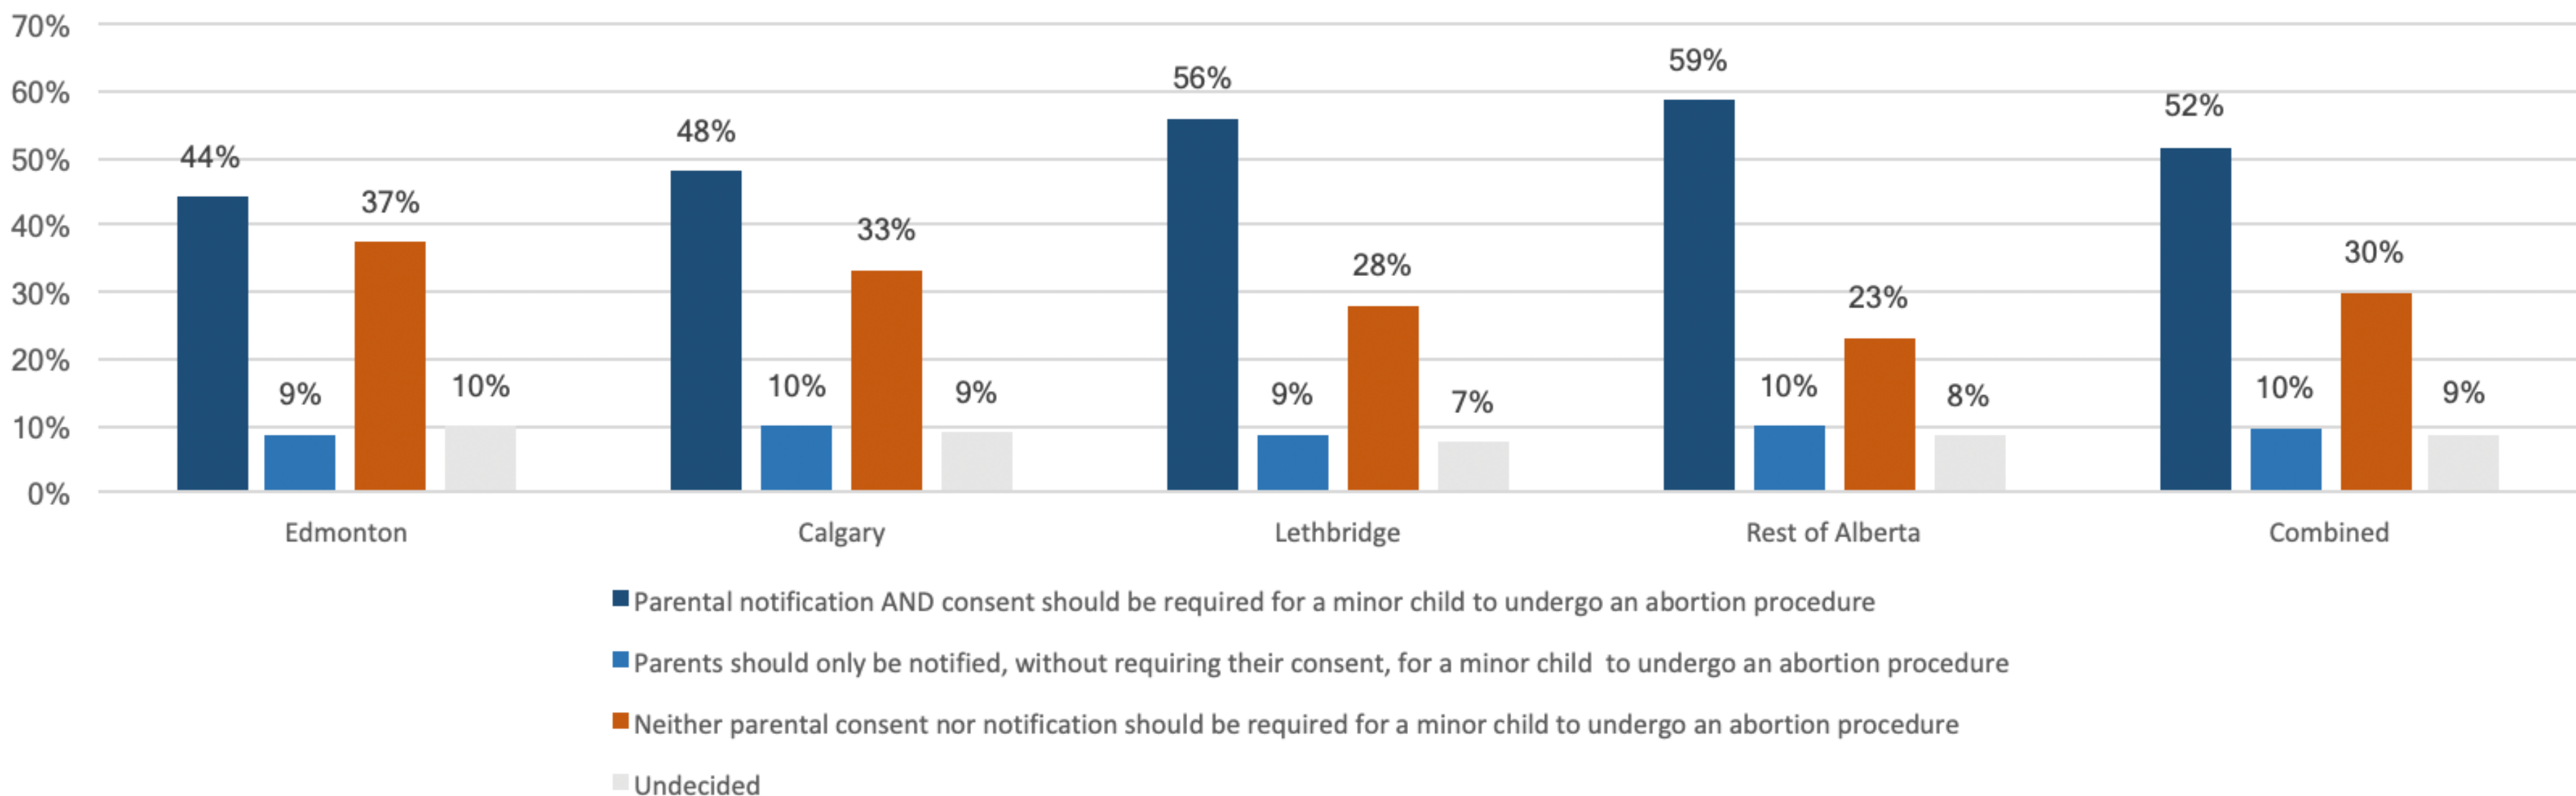

QUESTION

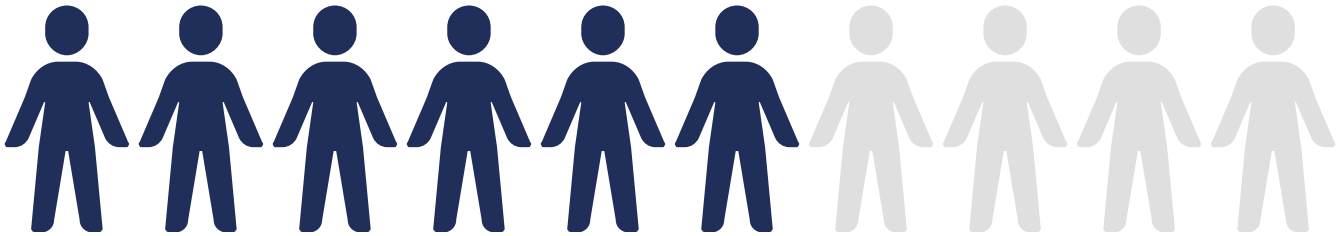

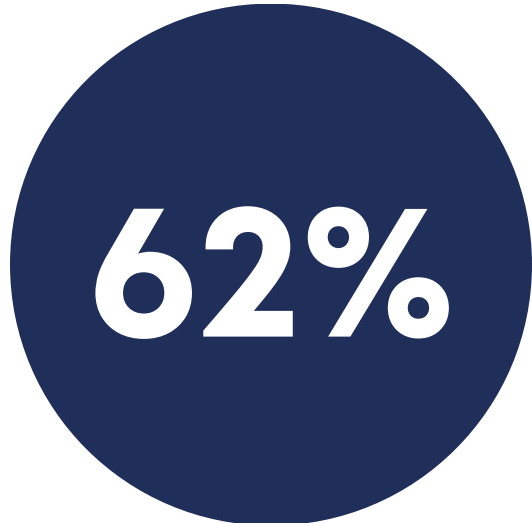

Decisions regarding minor children, such as medical treatments, piercings or tattoos, the use of tanning beds, or even the administration of Advil at school, all require the consent of parents. Minors do not, however, require the consent of their parents to get an abortion in Alberta. Nor is it required for parents to even be notified about their minor child's abortion.

What do you believe? Should parental rights include parental consent for a minor child seeking an abortion? please select the option that most closely aligns with your view:

Should parental rights include parental consent for a minor child seeking an abortion?

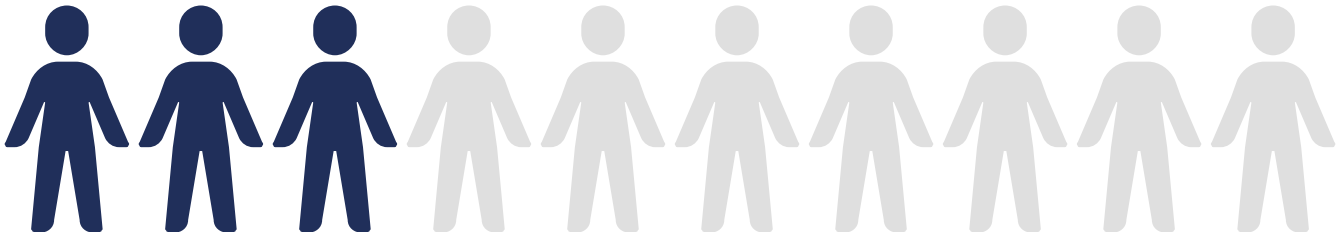

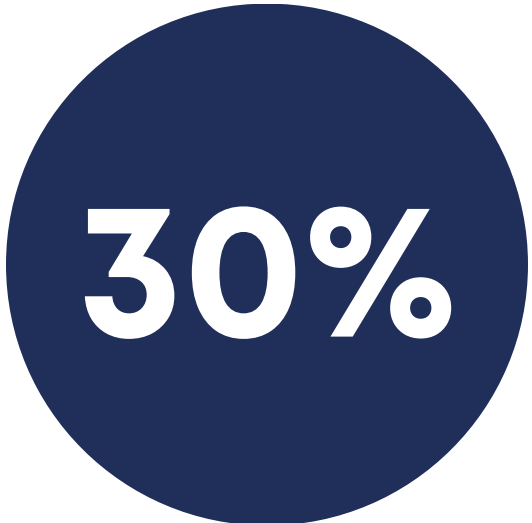

RESULTS

of Albertans

overall support parental consent or notification for minors seeking abortions.

of Albertans

think neither parental consent or notification should be required for minors seeking abortions.
