

Petition to: Ontario's School Trustees

Stop the subversion of parental authority! Don't let schools hide "gender transitioning" from parents.

Dear School Board Trustee,

It has come to my attention that at least five public school boards in Ontario have issued policies instructing teachers to NOT tell parents if their child is "transitioning" at school to a gender different from their biological sex, without the child's explicit consent.

Furthermore, the policy in two of these boards has "no age limit" and applies right down to Kindergarten!

This policy is in place in the Toronto District School Board, the Thames Valley District School Board, the Waterloo Region District School Board, the Greater Essex County District School Board, and the Upper Grand District School Board. Up to seven more school boards are suspected of having similar policies.

This is an outrageous annexation of parental authority by a school bureaucracy. It violates our parental rights, both under the constitution and natural law. And it harms children.

When the education bureaucracy imposes its radical sexual ideology on children, without the involvement or consent of parents, it is likely to produce psychological, emotional and physical harms to children, including an increased risk for depression and suicide.

It is utter madness for teachers or school board officials to arrogate unto themselves the power to prescribe to 5-year olds, psychological or "medical treatment" related to gender identity confusion, without the consent of parents.

I demand that elected trustees, who are entrusted to represent parents, take action immediately to retract this policy if it exists in their school board, and to enact a new policy that enshrines a positive right for parents to be informed of any suspected gender identity confusion in their children.
